DETAILED ACTION

Claim Objections

1. Claims 10 and 16 are objected to because of the following informalities: claims must end with a period. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. Claims 1-4, 10, 16 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the structural formula of the alkylglycoside renders the claim indefinite.

It is unclear whether applicant intends "*"C" to represent a methyl group or $-\text{CH}_2$ group. Also, the term "n" is not defined in claim 1.

The term "substantially" in claims 2-4 is a relative term that renders the claim indefinite. The term "substantially" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

Conclusion

3. Claims 1-22 are pending. Claims 1-4, 10, 16 and 22 are rejected. Claims 5-9, 11-15 and 17-21 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter: Milner US 4,886,789 (Milner) is the closest related prior art. Milner teaches a peritoneal dialysis composition containing an osmotic agent comprising a glucose polymer mixture; however, Milner does not teach or suggest modification of the polymer by oxidation, reduction or glycosylation.
